

Shafaw (II)

*“Shafaw Healing (II) – is Energy Healing for the removal of charges. The charges are allowed to surface, release, and move on. Once associated 'Charges' with a condition clear, a Shafaw healer prevents them from coming back and “The effect is going to be permanent”. A lot of times existing physical symptoms as well as physical symptoms in the making simply disappear with *Shafaw (II)*. In fact *Shafaw (II)* can successfully be used as Preventative Medicine.”*

Shafaw Healing (II) ends the Journeys to places no longer there!

“It does not matter what has been done to you or what you have done, what matters is to let go and start new creative endeavors and be a partner of life in the making.

Let Journeys to places no longer there comes to an end!”

– Master Danadoost

Shafaw (II):

*Master Danadoost has been utilizing *Shafaw (II)* since 1993 realizing that trying to Heal Physical issues without addressing related e-motional components may only temporarily be useful and creates only a cure at best!*

*Master Danadoost has been mainly utilizing *Shafaw (II)* in his private sessions and in Family conflicts/marriage healings since 1993. However, In 2010 Master Danadoost started to teach the amazing techniques of *Shafaw (II)* to the students of ‘Emitters of Light’ or year 4 students.*

*In *Shafaw*, spontaneous healing or healing addresses both physical and emotional disharmonies instantaneously or over time. However, in a *Shafaw (II)* environment, a Shafaw Healer directly focuses on ‘allowing’ the ‘charges’ related to any and all emotional/physical Issues to surface and be discharged. The charges are actual “Electrical” charges.*

Our *Shafaw* and *Shafaw (II)* motto is:

'It does not matter what has been done to you or what you have done'. It is about *'Releasing Electrical Charges'* attached to life stories so one can be free from all the hypnotic commands/subconscious programming and exhausting inner dialogue leading to *'New Choices'* and a *Conscious Happy Life*.

A *Shafaw (II)* healer does not influence *memories* nor *the subject of memories*. The *Shafaw (II)* healer determines the appropriateness of reviving a traumatic experience. *Once the subject of recovered memories and its relevance is assessed, leading questions allows charges to surface.*

Shafaw (II) simply addresses all charges, the Past/emotional regressions and the Present openly offering potential for profound transformation.

Once *'Charges'* are released, a *Shafaw (II)* Healer prevents the *'charges'* from coming back/recycle in different parts of the aura as well as different parts of the physical body.

By discharging the allied electrical *'Charges'* in Centers/Storage areas where *'Insecurities'* and *'fears'* are heavily deposited, the individual will find the *'Space'* to let go of *'electrical charges'* surrounding any condition, physical symptoms or not.

Once associated *'Charges'* with a condition clear, they cannot come back. The effect is going to be permanent.

A lot of times *existing* physical symptoms as well as physical symptoms *in the making* simply disappear with *Shafaw (II)*. *In fact Shafaw (II) can successfully be used as Preventative Medicine.*

For clairvoyants as well as those who have access to Aura Machine, *Shafaw (II)* is amazingly colorful. *Ideally*, the *'healee'* is best to be connected to an Aura Machine. The *'before'* & *'after'* aura is very impressive.

For the ones already affected by physical Dis-ease, *Shafaw (II)* expedites the physical healing as well as *'New'* openings for a healthy life. Especially with Terminally ill Healees, *the Process is a life Saver.*

Shafaw (II) satisfies the analytical mind and it can be labeled as *'Psycho-Cleansing'* & *'Subconscious mind purging'* such that the Healee/patient can start fresh.

Journeys to places no longer there comes to an end!

Shafaw (II) is particularly effective with all diseases like cancer and disease deemed as *"incurable"* by the Western medicine. Diseases like *fibromyalgia, lupus, MS* as well as all known *psycho Somatic Diseases*.

Shafaw (II) since its inception by Master Danadoost in 1993 has matured significantly. His extensive Shafaw Healing Work and observation integrating his *clairvoyant*, *clairaudient* & most importantly *Clairsentient* abilities has brought *Shafaw (II)* to ‘New Heights’.

He observed how human beings want to get better but *do not want to heal* as a result of the stored charges related to *insecurities, fear, grief, resentment, anger* and *frustration* in different parts of the physical bodies.

Shafaw (II) releases charges from all issues including *cross-national* and *cultural* differences that may be as important variances as in *genetic* factors. By removing ‘charges’ the healee constructs the road map that leads to maximized personal happiness.

While receiving *Shafaw (II)*, the healee realizes the charges anchored in habits/cycles and behaviors and therefore, the healee can decode and release abuses in the mind and the body.

Shafaw (II) decodes *childhood programming, generational tendencies* and *hypnotic words* and *catch phrases*. By realizing how one identifies with the hypnotic commands, one can achieve the highest potentials. Once the hypnotic words are identified, they can be replaced by the healee with positive and direct language in alignment with the order of the universe and what the healee wants.

Testimonials: Shafaw (II)

- ♥ Thank you *Master Danadoost*, as you helped me realized, after 50-years, that my father had *not molested* me, my *Ovarian Cancer* started to heal.
- ♥ My *disease* went like “***Smell***”!
- ♥ *What did you do?* The long life “***grief***” is gone! LOL.

- **Bios.**

Master Danadoost. *Master Danadoost started his healing career after receiving a healing from Grand Master Healer Ostad Parvarandeh in 1992 in Iran who freed him from Leukemia and a host of other diseases like hepatitis. Master Danadoost then studied forty days with Master Parvarandeh and upon returning to the US started the Shafaw Method of healing which he continues today. For more information please visit:*
